ABSTRACT

This ninth in a series of such catalogs lists 449 items pertaining to foreign language instruction that were accessioned by all Educational Resources Information Center (ERIC) Clearinghouses from November 1971 through April 1972. Entries are organized alphabetically, and a 15-subject user index assists in pinpointing items relevant to particular interests. Also supplied are prices for microfiche or hard copy reproduction, ERIC document numbers, and availability information. For previous such catalogs, see ED 026 924, ED 029 538, ED 033 643, ED 037 150, ED 044 990, ED 047 592, ED 056 600, and ED 062 889. (RL)

SUBMITTING DOCUMENTS TO ERIC

The success of the ERIC system depends largely on its being widely used by the educational community it is designed to serve. But to an even greater extent its success depends on the acquisition of current, significant documents. Without these the system cannot exist. *Here we turn to you for help.* We request that every author make a practice of insuring that the MLA/ERIC Clearinghouse receives two copies (if possible) of any document he thinks falls within our scope. We seek not only your typical research reports with their hypotheses, test methods, and findings, but also published and unpublished conference papers, newsletters, speeches, curriculum guides or studies, interim project reports, books, and other works that you believe will have value for FL and TESOL teachers, linguists, administrators, researchers, and the public. If the document is typed, mimeographed, or dittoed, the copy should be sharp and clear, or it cannot be processed. If the document is copyrighted, it will *not* be processed into the ERIC Document Reproduction Service (EDRS) without written permission. But if accepted, *information about it* (bibliographical data, abstract, and indexing terms) will be prepared and processed into the Central ERIC computer system, so that it will appear in retrieval bibliographies and be otherwise publicized in the ERIC system. *Language-teaching materials (e.g., texts) are normally not considered by MLA/ERIC.*

ERIC Documents on the Teaching of Foreign Languages: List Number 9

Carolyn Monka

THIS is the ninth in a series of catalogues of those documents related to the teaching of foreign languages which may be obtained in microfiche or hard copy from the ERIC (Educational Resources Information Center) Document Reproduction Service. The list was compiled by means of a close search of computer-generated catalogues of comprehensive ERIC accessions which have been fully processed into the system by the U.S. Office of Education, the MLA/ERIC Clearinghouse, and other ERIC Clearinghouses from November 1971 through April 1972. Attention is called to the fact that a significant number of ERIC documents having primary interest in other fields (e.g., psychology, administration, theoretical linguistics, sociology, etc.) also have some relevancy to foreign language teaching but are not included here.

This is not a classified bibliography. Entries have been listed only in alphabetical order, since categories change from list to list, reflecting the subject matter of foreign language documents processed into the ERIC system during each six-month period. However, a USER INDEX is provided below which will help the reader identify documents on fifteen special topics. (All documents accessioned into the ERIC system are subjected to a coordinate indexing procedure and in each case bibliographical information, abstract, and indexing terms are stored on magnetic tape. Thus, it is possible to obtain computer-generated bibliographies on special topics.)

The cost of microfiche (MF) is $0.65 per title, regardless of the length of a document. The cost of hard copy (HC) is $3.29 per title, unless noted otherwise in the report citation. For instructions on purchasing ERIC documents, see the box entitled "How to Order ERIC Reports."

HOW TO LOCATE AN ABSTRACT

The concluding information in each citation refers the reader to the page and issue of *Research in Education* (*RIE*) where he can examine an abstract of any document, e.g. [*RIE* (Apr 1972) 96]. *RIE*, published since November 1966, is a monthly abstract catalogue of reports, studies, articles, etc., which have been processed into the ERIC system since 1966. This reference journal may be ordered from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 (subscription per year: domestic, $21.00; foreign, $26.25; single issue, $1.75).

User Index

Documents relevant to each of fifteen subjects are identified below by the bibliography citation number. These topics were chosen because they reflect the bulk of inquiries that have been received at the MLA/ERIC Clearinghouse on Languages and Linguistics, and because they cover the majority of documents processed by MLA/ERIC into the ERIC system. Frequently, a document is identified under more than one subject; this system of multiple indexing allows the user to locate specific documents by searching for recurring numbers in the sections which most closely define his needs. Occasionally, however, a document does not fall into any of the categories, and it should be noted that many valuable and informative papers cited in *List Number 9* are not retrievable through the User Index.

In most cases, the *General* subheading includes documents which are of a broad or theoretical nature, or those which cover two or more of the other specific subheadings in a given category. *Other* indicates documents which apply to individual languages that are not listed separately within that section. CULTURE AND LITERATURE includes documents which provide background information on a culture, or those which actually treat the teaching of culture and literature in the classroom. Listings in TEACHER PREPARATION include teacher training as well as background information which may be of value to the practicing teacher. LINGUISTICS AND FOREIGN LANGUAGE TEACHING indicates only those ERIC documents on linguistics which may be of practical use to the teacher, or which discuss more generally the relevance of linguistics to foreign language instruction.
